Congress and the First Civil Rights Era, 1861-1918 Jan 28 2020 Civil rights legislation figured prominently in the agenda of Congress during the Civil War and Reconstruction. But as Reconstruction came to an end and discrimination against African Americans in the South became commonplace, civil rights advocates in Congress increasingly shifted to policies desired by white constituents in the North who had grown tired of efforts to legislate equality. In this book, the first of a two-volume set, Jeffery A. Jenkins and Justin Peck explore the rise and fall of civil rights legislation in Congress from 1861 to 1918. The authors examine in detail how the Republican Party slowly withdrew its support for a meaningful civil rights agenda, as well as how Democrats and Republicans worked together to keep civil rights off the legislative agenda at various points. In doing so, Jenkins and Peck show how legal institutions can be used both to liberate and protect oppressed minorities and to assert the power of the white majority against those same minority groups.

Shade Nov 07 2020 From Pete Souza, the #1 New York Times bestselling author of *Obama: An Intimate Portrait*, comes a potent commentary on the Presidency -- and our country. As Chief Official White House Photographer, Pete Souza spent more time alongside President Barack Obama than almost anyone else. His years photographing the President gave him an intimate behind-the-scenes view of the unique gravity of the Office of the Presidency -- and the tremendous responsibility that comes with it. Now, as a concerned citizen observing the Trump administration, he is standing up and speaking out. *Shade* is a portrait in Presidential contrasts, telling the tale of the Obama and Trump administrations through a series of visual juxtapositions. Here, more than one hundred of Souza's unforgettable images of President Obama deliver new power and meaning when framed by the tweets, news headlines, and quotes that defined the first 500 days of the Trump White House. What began with Souza's Instagram posts soon after President Trump's inauguration in January 2017 has become a potent commentary on the state of the Presidency, and our country. Some call this "throwing shade." Souza calls it telling the truth. In *Shade*, Souza's photographs are more than a rejoinder to the chaos, abuses of power, and destructive policies that now define our nation's highest office. They are a reminder of a President we could believe in, and a courageous defense of American values.

NON-TRUTH, MORAL NIHILISM, and JACOBIN CYNICISM Sep 29 2022 America, the powerful lead nation of the occidental world, is in trouble. Her society is deeply divided as moral and intellectual confusion sweep across the country, engulfing politics, media, academia, and the arts. Micewski confirms this premise in his compelling analysis of the tenures of the 44th and 45th US Presidents--two political leaders diametrically opposed in character, ideology, and statecraft--as well as the transition to the 46th and his first year in office. He thrusts his critique equally at social and cultural issues as well as foreign policy and national security challenges that arose during these twelve-plus years in contemporary American history. From the fundamental level of political and moral philosophy, the author challenges the dictate of scientific rationality as the exclusive model of dealing with social and political challenges and calls for a revival of a comprehensive framework of meaning that restrengthens the metaphysical and spiritual dimensions of human consciousness. In analyzing the impact of the political administration's decisions and policies on the nation and global affairs, he explains why human coexistence, at all levels, requires the acknowledgment of a minimal moral disposition, a nominal level of shared morality, and human recognition. Micewski's thought-provoking memoir reveals the tragic consequences the lack of philosophical wisdom in the polity generates on both national and international levels. His critical review offers solutions

and ideas for resolve and explains why a rebirth of thoughtful conservatism is essential for this nation's and Western civilization's survival. Edwin R. Micewski is a retired Austrian Brigadier General with a Doctorate in Philosophy and a Master's in Political Science from the University of Vienna. He was the director of a humanities and social sciences center and has published and taught on both sides of the Atlantic about national security, military ethics, and civil-military interactions. Since his retirement in 2008, he has lived in the United States, where he continues to write and comment as a freelance philosopher and political blogger.
