Fallocaust Nov 30 2019 Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

International Research Handbook on Values Education and Student Wellbeing Jul 31 2022 Informed by the most up-to-date research from around the world, as well as examples of good practice, this handbook analyzes values education in the context of a range of school-based measures associated with student wellbeing. These include social, emotional, moral and spiritual growth – elements that seem to be present where intellectual advancement and academic achievement are being maximized. This text comes as ‘values education’ widens in scope from being concerned with morality, ethics, civics and citizenship to a broader definition synonymous with a holistic approach to education in general. This expanded purview is frequently described as pedagogy relating to ‘values’ and ‘wellbeing’. This contemporary understanding of values education, or values and wellbeing pedagogy, fits well with recent neuroscience research. This has shown that notions of cognition, or intellect, are far more intertwined with social and emotional growth than earlier educational paradigms have allowed for. In other words, the best laid plans about the technical aspects of pedagogy are bound to fail unless the growth of the whole person – social, emotional, moral, spiritual and intellectual, is the pedagogical target. Teachers and educationalists will find that this handbook provides evidence, culled from both research and practice, of the beneficial effects of such a ‘values and wellbeing’ pedagogy.

High-Speed Rail and Sustainability Sep 20 2021 High speed rail (HSR) is being touted as a strategic investment for connecting people across regions, while also fostering prosperity and smart urban growth. However, as its popularity increases, its implementation has become contentious with various parties contesting the validity of socioeconomic and environmental objectives put forward as justification for investment. High Speed Rail and Sustainability explores the environmental, economic and social effects of developing a HSR system, presenting new evaluations of the proposed system in California in the US as well as lessons from international experience. Drawing upon the accumulated experience from past HSR system development around the world, leading experts present a diverse set of perspectives as well as diverse contexts of implementation. Assessments of the California case as well as cases from Japan, France, Germany, Italy, Spain, Taiwan, China, and the UK show how governments and stakeholders have bridged the gap between the vision and the realities of connecting metropolitan regions through HSR. This is a valuable resource for academics, researchers and policy-makers in the areas of urban planning, civil engineering, transportation and environmental design.

Early Scotland Oct 22 2021 Hector Munro Chadwick (1870-1947) was a literary critic and historian, who made notable contributions to the development of philology. Originally published in 1949, this book was edited and completed after Chadwick's death by his wife, Nora Kershaw Chadwick (1891-1972), another prominent literary scholar. The text presents a detailed study of life in early Scotland, encompassing the Picts, the Scots, and the Welsh of southern Scotland. Numerous illustrative figures and detailed notes are also included. This is a fascinating book that will be of value to anyone with an interest in Scottish and Celtic history.

„And on this Rock I Will Build My Church“. A New Edition of Philip Schaff's „History of the Christian Church“ Jun 17 2021 This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes, each of them containing the text of two volumes of the original edition. Schaff's work, unlike other works in the field, covers a multitude of church history-related aspects – from church doctrine, policy, events and processes to aspects of social moral and family life, arts and more. It is a very comprehensive text, extremely well-written and readable, rich in material and sources used, and attests to the excellence of protestant German theological scholarship under the influence of emerging Historical-Critical Biblical Exegesis at his time. This first volume covers the period from the beginnings to the Ante-Nicene Fathers (A.D. 1-311).
