[Understanding Modern Nigeria](#) Sep 20 2021 Since its independence from Britain in 1960, Nigeria has emerged as Africa's second largest economy and one of the biggest producers of oil in the world. Despite its economic success, however, there are deep divisions among its two hundred and fifty ethnic groups. Centered around three of the dominant themes of Nigeria's post-colonial narrative - ethnicity, democracy and governance, this is an accessible and comprehensive introduction to the history and events that have shaped these three areas. World-renowned expert in Nigerian history, Toyin Falola shows us how the British laid the foundations of modern Nigeria, with colonialism breaching competition for resources and power and the widening cleavages between the Hausa-Fulani, Yoruba, and Igbo ethnic groups that had been forced together under British rule, the choice of federalism as a political system, and the religious and political pluralism that have shaped its institutions and practices. Using an examination of the outcomes of this history, manifested in hunger, violence, poverty, human rights violations, threats of secession and corruption, where power and resources are used to reproduce underdevelopment, Falola offers insights and recommendations for the future of policy and the potential for intervention in the country.

[A History of the Republic of Biafra](#) Jan 01 2020 The Republic of Biafra lasted for less than three years, but the war over its secession would contort Nigeria for decades to come. Samuel Fury Childs Daly examines the history of the Nigerian Civil War and its aftermath from an uncommon vantage point – the courtroom. Wartime Biafra was glutted with firearms, wracked by famine, and administered by a government that buckled under the weight of the conflict. In these dangerous conditions, many people survived by engaging in fraud, extortion, and armed violence. When the fighting ended in 1970, these survival tactics endured, even though Biafra itself disappeared from the map. Based on research using an original archive of legal records and oral histories, Daly catalogues how people navigated conditions of extreme hardship on the war front, and shows how the conditions of the Nigerian Civil War paved the way for the country's long experience of crime that was to follow.

[Power, Culture and Modernity in Nigeria](#) Sep 28 2019 In this book, Oluwatoyin Oduntan offers a critical intervention in the scholarly fields of Nigerian, and West African history, as well as towards understanding the intellectual ideas by which modern African society was formed, and how it functions. The book traces the shifting dynamics between various segments of the African elite by critically analyzing existing historical accounts, traditions and archival documents. First, it explores the lost world of native intellectual thoughts as the perspective through which Africans experienced the colonial encounter. It thereby makes Africans central to contemporary debates about the meanings and legitimacy of colonial empires, and about the African cultural experience. It shows that the resettlement of liberated and Westernized Africans in Abeokuta and after them, European missionaries, merchants and colonial agents from the 1840s, did not dismantle preexisting power structures and social relations. Rather, educated Africans and Europeans entered into and added their voices to ongoing processes of defining culture and power. By rendering a continuing narrative of change and adaptation which connects the pre-colonial to the post-colonial, Power, Culture and Modernity in Nigeria leads Africanist scholarship in new directions to rethink colonial impact and uncover the total creative sites of changes by which African societies were formed.

Nigeria and the Nation-State Jul 07 2020 Nigeria matters. It is Africa's largest economy, and it is projected to become the third most populous country in the world by 2050, but its democratic aspirations are challenged by rising insecurity. John Campbell traces the fractured colonial history and contemporary ethnic conflicts and political corruption that define Nigeria today. It was not—and never had been—a nation-state like those of Europe. It is still not quite a nation because Nigerians are not yet united by language, religion, culture, or a common national story. It is not quite a state because the government is weak and getting weaker, beset by Islamist terrorism, insurrection, intercommunal violence, and a countrywide crime wave. This deeply knowledgeable book is an antidote to those who would make the mistakes of Vietnam, Afghanistan, and Iraq—mistakes based on misunderstanding—in Nigeria. Up to now, such mistakes have largely been avoided, but Nigeria will soon—and Campbell argues already does—require much greater attention by the West.

Understanding Modern Nigeria Jun 17 2021 An introduction to the politics and society of post-colonial Nigeria, highlighting the key themes of ethnicity, democracy, and development.

History and the Law of the Constitution of Nigeria May 05 2020 In writing this authoritative source of reference for students of Law and legal practitioners in Nigeria and elsewhere, Sir Udo Udoma realised a youth ambition he developed as a Reid's Professor's Prizeman of the Law School of the University of Dublin, Trinity College, Dublin, Ireland, in the 1940s, to one day write a book on Constitutional Law. HISTORY AND THE LAW OF THE CONSTITUTION OF NIGERIA is the result of his study and analysis of Nigeria's constitutional history that involved research work of great magnitude into the various nooks and crannies in which the origin of the country, Nigeria, lies buried. It allows the reader to understand and appreciate some of the problems that still confront Nigeria, as a country in the continent of Africa, particularly those of unity and stability.

Ethics and Society in Nigeria Mar 03 2020 Offers a radical political interpretation of history that generates fresh insights into the emancipatory potential of ordinary Nigerians and their precolonial cultural institutions

Theories of History Jun 05 2020 In a unique approach to historical representations, the central question of this book is 'what is history?' By describing 'history' through its supplementary function to the field of history, rather than the ground of a study, this collection considers new insights into historical thinking and historiography across the humanities. It fosters engagement from around the disciplines in historical thinking and, from that, invites historians and philosophers of history to see clearly the impact of their work outside of their own specific fields, and encourages deep reflection on the role of historical production in society. As such, Theories of History opens up for the first time a truly cross-disciplinary dialogue on history and is a unique intervention in the study of historical representation. Essays in this volume discuss music history, linguistics, theater studies, paintings, film, archaeology and more. This book is essential reading for those interested in the practice and theories of history, philosophy, and the humanities more broadly. Readers of this volume are not only witness to, but also part of the creation of, radical new discourses in and ways of thinking about, doing and experiencing history.

A Brief Political History of Nigeria Oct 29 2019 This book is an easy to read presentation of the political journey of Nigeria from 1914 to date. The book presents our political development from two protectorates to the current 36 states and Federal Capital Territory (FCT). The book can be easily read by a primary school student with little or no knowledge of Nigerian politics, or by a senior citizen who wants a quick reminder of political events in years gone by - and by everyone in between.

The History of Nigeria Nov 03 2022 Presents a history of Nigeria from its earliest beginnings to the present, discussing its geography, political institutions, economic structure, culture, and ethnic groups.

[Nigeria, Nationalism, and Writing History](#) Jan 25 2022 The second half of the twentieth century saw the publication of massive amounts of literature on Nigeria by Nigerian and non-Nigerian historians. This volume reflects on that literature, focusing on those works by Nigerians in the context of the rise and decline of African nationalist historiography. Given the diminishing share in the global output of literature on Africa by African historians, it has become crucial to reintroduce Africans into historical writing about Africa. As the authors attempt here to rescue older voices, they also rehabilitate a stale historiography by revisiting the issues, ideas, and moments that produced it. This revivalism also challenges Nigerian historians of the twenty-first century to study the nation in new ways, to comprehend its modernity, and to frame a new set of questions on Nigeria's future and globalization. In spite of current problems in Nigeria and its universities, that historical scholarship on Nigeria (and by extension, Africa) has come of age is indisputable. From a country that struggled for Western academic recognition in the 1950s to one that by the 1980s had emerged as one of the most studied countries in Africa, Nigeria is not only one of the early birthplaces of modern African history, but has also produced members of the first generation of African historians whose contributions to the development and expansion of modern African history is undeniable. Like their counterparts working on other parts of the world, these scholars have been sensitive to the need to explore virtually all aspects of Nigerian history. The book highlights the careers of some of Nigeria's notable historians of the first and second generation. Toyin Falola is Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin. Saheed Aderinto is Assistant Professor of History at Western Carolina University.

The Historical Development of Science and Technology in Nigeria Aug 08 2020 Areas discussed in this text include traditional methods of food processing, cassava-processing technology in the contemporary period, textile technology, and pedagogy and science teaching in Nigeria. There is also a specific focus on gender and technology. The text concentrates on the historical dimension but approaches the subject in the context of multidisciplinary interpretation.

History of Nigeria: Nigeria before 1800 AD Jan 13 2021

Nigerian History, Politics and Affairs Jun 29 2022 These essays attempt to focus the light of history, on Nigeria, Nigerians and their contemporary, condition. The root idea here is that fundamental, to all historical works - that when the mind, interacts with the past, the result is something, like a torchlight whose beam is focused on the, present, thus enabling us to achieve a better, understanding of the problems which face us.. Afigbo has probed deep into Nigeria's past bringing out all the facets, all the elements and, all the issues that are necessary to improve the, present.

[What Britain Did to Nigeria](#) Apr 15 2021 Most accounts of Britain's rule over Nigeria were written by British officials who presented colonialism as a civilizing mission to rid Africans of barbaric superstition and corrupt tribal leadership; to educate them and convert them to Christianity. Yet strangely for a colonized people openly described this way by their oppressors-many Nigerians today still view their country's time in the Empire through rose-tinted glasses. Max Siollun offers a bold rethink: a clear-eyed, unromanticized history of colonial Nigeria. He argues compellingly that colonialism was not a system with benevolent intentions. It may have ended practices such as slavery and human sacrifice, but those who resisted were violently repressed; Britain's disruption and forceful remolding of longstanding customs permanently altered the belief systems, culture and internal politics of indigenous Nigerian

communities. The aftershocks of this British interference have been felt for decades since independence, as the country continues to suffer from economic and political turmoil that Britain has laid at the doorstep of Nigeria's own leaders. This book is a definitive, head-on confrontation with Nigeria's experience under British rule, deftly showing how the country was forever changed by colonialism--perhaps cataclysmically.

History of Education in Nigeria Nov 22 2021 Originally published in 1974, a comprehensive history of Nigerian Education, from early times right through to the time of publication, had long been needed by all concerned with Education in Nigeria, students, teachers and educational administrators. No one was better qualified than Professor Fafunwa to provide such a book, and in doing so he gave due emphasis to the beginnings of Education in its three main stages of indigenous, Muslim and Christian Education. Nigerian Education had been considered all too often as a comparatively recent phenomenon, but this book points out from the start that 'Education is as old as Man himself in Africa' and that both Islam and Christianity were comparative newcomers in the field. A historical treatment of these three strands which have combined to make up the modern Educational system was vital to a clear understanding of what was needed for the future, and most of the first half of the book is concerned with these Educational beginnings. The imposing of a foreign colonial system on this framework did not always lead to a happy fusion of the systems, and the successes and the failures are examined in detail. There was no shortage of documentary evidence in the form of reports and statistics during the decades prior to publication, but this evidence was frequently scattered and inaccessible to the student, so that the author's careful selection of key evidence and reports, often drawn from his own personal experience, will be invaluable for those wishing to trace the development of Education in Nigeria up to the early 1970s. A knowledge of the history and development of the Nigerian Education system, of the numerous and intensely varied personalities and beliefs which have combined and often conflicted to shape it, is indispensable to all students in colleges and universities studying to become teachers. It is this knowledge that Professor Fafunwa set out to provide, drawing on his wide experience as teacher writer and educationalist.

Milestones in Nigerian History Nov 10 2020

A History of Nigeria Mar 15 2021 Nigeria is Africa's most populous country and the world's eighth largest oil producer, but its success has been undermined in recent decades by ethnic and religious conflict, political instability, rampant official corruption and an ailing economy. Toyin Falola, a leading historian intimately acquainted with the region, and Matthew Heaton, who has worked extensively on African science and culture, combine their expertise to explain the context to Nigeria's recent troubles through an exploration of its pre-colonial and colonial past, and its journey from independence to statehood. By examining key themes such as colonialism, religion, slavery, nationalism and the economy, the authors show how Nigeria's history has been swayed by the vicissitudes of the world around it, and how Nigerians have adapted to meet these challenges. This book offers a unique portrayal of a resilient people living in a country with immense, but unrealized, potential.

A Story of Heroes and Epics Jul 27 2019

Nigeria Oct 22 2021 Nigeria seems to be in the news all of the time for something, be it regime changes, co-operation, internal strife or oil policies. The most populous country in Africa and the largest in area in the West African state, Nigeria was an early twentieth century colony that became an independent nation in 1960. A country of great diversity because of the many ethnic, linguistic, and religious groups that live within it borders, Nigeria is also a country with a long past. This book brings together current issues and a detailed historical background.

The Oxford Handbook of Nigerian History May 17 2021 This book reads the narrative of the national politics alongside deeper histories of political and social organization, as well as in relation to competing influences on modern identity formation and inter-group relationships, such as ethnic and religious communities, economic partnerships, and immigrant and diasporic cultures

A Short History of Nigeria Feb 11 2021

History of Nigeria Mar 27 2022

This Present Darkness Jul 31 2022 Nigeria and Nigerians have acquired a notorious reputation for involvement in drug-trafficking, fraud, cyber-crime and other types of serious crime. Successful Nigerian criminal networks have a global reach, interacting with their Italian, Latin American and Russian counterparts. Yet in 1944, a British colonial official wrote that 'the number of persistent and professional criminals is not great' in Nigeria and that 'crime as a career has so far made little appeal to the young Nigerian'. This book traces the origins of Nigerian organised crime to the last years of colonial rule, when nationalist politicians acquired power at a regional level. In need of funds for campaigning, they offered government contracts to foreign businesses in return for kickbacks, in a pattern that recurs to this day. Political corruption encouraged a wider disrespect for the law that spread throughout Nigerian society. When the country's oil boom came to an end in the early 1980s, young Nigerian college graduates headed abroad, eager to make money by any means. Nigerian crime went global at the very moment new criminal markets were emerging all over the world.

My Nigeria Oct 10 2020 His nineteenth-century cousin, paddled ashore by slaves, twisted the arms of tribal chiefs to sign away their territorial rights in the oil-rich Niger Delta. Sixty years later, his grandfather helped craft Nigeria's constitution and negotiate its independence, the first of its kind in Africa. Four decades later, Peter Cunliffe-Jones arrived as a journalist in the capital, Lagos, just as military rule ended, to face the country his family had a hand in shaping. Part family memoir, part history, My Nigeria is a piercing look at the colonial legacy of an emerging power in Africa. Marshalling his deep knowledge of the nation's economic, political, and historic forces, Cunliffe-Jones surveys its colonial past and explains why British rule led to collapse at independence. He also takes an unflinching look at the complicated country today, from email hoaxes and political corruption to the vast natural resources that make it one of the most powerful African nations; from life in Lagos's virtually unknown and exclusive neighborhoods to the violent conflicts between the numerous tribes that make up this populous African nation. As Nigeria celebrates five decades of independence, this is a timely and personal look at a captivating country that has yet to achieve its great potential.

A Short History of Nigeria Aug 20 2021

Groundwork of Nigerian History Sep 01 2022 Filling a gap, this study presents a comprehensive history of Nigeria's diverse peoples. The first two chapters provide a geographical and archaeological background. The main body of the work is divided into three sections: Nigeria Before 1800; Nigeria in the 19th century; and Nigeria in the 20th century. Contributors cover a multitude of different issues and regions such as the Benin Kingdom, the trans-atlantic slave trade, nationalist movements, and Borno in the 19th century.

Nigeria Feb 23 2022 'If you want to understand Nigeria's history in one succinct go, this is a very good choice.' Noo Saro-Wiwa Known as the African Giant, Nigeria's story is complex and often contradictory. How, despite the ravages of colonialism, civil war, ongoing economic disappointment and most recently the Boko Haram insurgency, has the country managed to stay together for a hundred years? Why, despite an abundance of oil, mineral and agricultural wealth, have so many of its people remained in poverty? These are the key questions explored by Richard Bourne in this remarkable and wide-ranging account of Nigeria's history, from its creation in 1914 to the historic 2015 elections and beyond. Featuring a wealth of original research and interviews, this is an essential insight into the shaping of a country where, despite the seemingly dashed optimism that was raised at independence, there still remains hope 'the Nigeria project' may still succeed.

The Historia Jan 31 2020

The Colonial Contest for the Nigerian Region, 1884-1900 Jul 19 2021 This book examines German participation in the colonial contest for Nigeria during the scramble for and partition of Africa at the end of the nineteenth Century. It focuses on the activities of some German individuals and organisations that were actively engaged in the struggle to acquire the Nigerian region as a colony for Germany. There are two reasons for this failure: one, lack of consistent colonial policy during Bismarck's era and two, the Opposition of the Royal Niger Company. The only success recorded in Nigeria was in Adamawa and Borno. Germany got some parts of these emirates as a result of the determination of the Royal Niger Company, supported by the British government, to deny the French any access to the navigable part of the two major rivers. Germany retained control of this region until the outbreak of the First World War.

A History of Borno Nov 30 2019 Borno (in northeast Nigeria) is notorious today as the home of an Islamist terrorist group, Boko Haram, whose insurgency is a major security threat, but it was once the heartland of the Kanuri-speaking royal empire of Kanem-Borno, renowned throughout Africa and beyond, which in its later incarnation, the Bornu Empire, lasted from 1380 to 1893. This book offers the reader the first modern history of Borno, drawing upon sources in London, Berlin, Paris, Kaduna and Maiduguri and recently released 'migrated archives'. As its longevity suggests, what is particularly remarkable about Borno is the permanence of its boundaries-its territorial integrity-which dates back centuries, and the political and social identities that such borders framed in the minds of its inhabitants.
