Economics: The User's Guide May 26 2022 What is economics? What can - and can't - it explain about the world? Why does it matter? Ha-Joon Chang teaches economics at Cambridge University, and writes a column for the Guardian. The Observer called his book 23 Things They Don't Tell You About Capitalism, which was a no.1 bestseller, 'a witty and timely debunking of some of the biggest myths surrounding the global economy.' He won the Wassily Leontief Prize for advancing the frontiers of economic thought, and is a vocal critic of the failures of our current economic system.

The Great Outdoors: A User's Guide Apr 24 2022 "Leonard's durable tome (seriously, the cover is rubber) is stuffed with so many tips about surviving in the wild, you'll be able to leave your smartphone behind." —Entertainment Weekly, Best New Books This easy introduction to outdoor life will ensure that even a novice won't get lost in the woods while finding an activity he loves to do in the great outdoors--whether it's hiking a 14er or camping on ice. With 400 strategies for engaging in the outdoors, and expert tips and tricks, The Great Outdoors: A User's Guide makes Mother Nature easier to understand than ever before. Brendan Leonard, writer, filmmaker, and outdoor adventurer, shows the reader how rewarding it can be to live life away from the computer and get outside. From mountain climbing, to skiing, sledding, and sailing, Leonard shows that you don't need to be a risk taker to enjoy the outdoors. And if the reader does find himself at the point of man vs. nature, Leonard shares survival skills from how to bandage a wound and read a topographical map, to how to drive on sand and remove a tick from your skin—all organized thematically and written in short takeaway entries with helpful line drawings. Bound in a uniquely rugged (and waterproof!) PVC cover material, The Great Outdoors: A User's Guide is a friendly way into the outdoor lifestyle, whether you're looking to dabble or go all in.

IT Security Compliance Management Design Guide with IBM Tivoli Security Information and Event Manager Jul 28 2022 To comply with

government and industry regulations, such as Sarbanes-Oxley, Gramm Leach Bliley (GLBA), and COBIT (which can be considered a best-practices framework), organizations must constantly detect, validate, and report unauthorized changes and out-of-compliance actions within the Information Technology (IT) infrastructure. Using the IBM® Tivoli Security Information and Event Manager solution organizations can improve the security of their information systems by capturing comprehensive log data, correlating this data through sophisticated log interpretation and normalization, and communicating results through a dashboard and full set of audit and compliance reporting. In this IBM Redbooks® publication, we discuss the business context of security audit and compliance software for organizations and describe the logical and physical components of IBM Tivoli Security Information and Event Manager. We also present a typical deployment within a business scenario. This book is a valuable resource for security officers, administrators, and architects who want to understand and implement a centralized security audit and compliance solution.

Pump User's Handbook Sep 29 2022 A valuable reference, *Pump User's Handbook: Life Extension* explains just how and why the best-of-class pump users are consistently achieving superior run lengths, low maintenance expenditures, and unexcelled safety and reliability. The book conveys, in detail, what must be done to rapidly accomplish best-of-class performance and low life cycle cost. Simply put, the text explains what exactly needs to be done if a facility wants to progress from being a one, two, or three year pump MTBF plant, and wishes to join the leading money-making facilities that today achieve a demonstrated pump MTBF of 8.6 years. Written by two practicing engineers whose combined 80-year working career included all conceivable facets of pumping technology, book provides experience-based details, data, guidance, direction, explanations, and firm recommendations. Implementing what this text explains will allow a plant to move from yesterday's demonstrably unprofitable and costly repair focus to tomorrow's absolutely necessary reliability focus.

Fluorinated Coatings and Finishes Handbook Dec 09 2020 *Fluorinated Coatings and Finishes Handbook: The Definitive User's Guide, Second Edition*, addresses important, frequently posed questions by end-user design engineers, coaters, and coatings suppliers on fluorinated coatings and finishes, thus enabling them to achieve superior product qualities and shorter product and process development times. The book provides broad coverage of these fluorinated polymer coatings, including the best known PTFE, polytetrafluoroethylene, first trademarked as Teflon® and ePTFE (GoreTex®). Their inherent qualities of low surface tension, non-stick, low friction, high melting point, and chemical inertness make fluoropolymer coatings widely desirable across thousands of industrial and consumer applications, but these properties also make it difficult to convert fluoropolymers to coatings that have sufficient adhesion to the substrate to be protected. In this book, readers learn how fluoropolymer coatings are used and made, about their pigments and fillers, binders, dispersion processes, additives, and solvents. The book includes substrate preparation, coating properties, baking and curing processes, performance tests, applications, and health and safety. Provides a practical handbook that covers the theory and practice of fluorinated coatings, including the structure and properties of binders and how to get a non-stick coating to stick to the substrate Covers liquid and power fluorocoatings, their applications methods, curing and baking processes, and their commercial end uses Presents detailed discussions of testing methods related to fluorocoatings, common coating defects, how they form, how to eliminate them, and the health and safety aspects of using and applying fluorocoatings Includes substrate preparation, coating properties, baking and curing processes, performance tests, applications, and health and safety
